## Education

**DEC – Programming & Technology** | Lasalle College, Montreal, QC | **Aug 2023 – Present**

**Coursework:** Web & Mobile Development, Database Management, Object-Oriented Programming (Java, Python, JavaScript, Swift)

## TECHNICAL SKILLS

**Languages:** Swift, Java, JavaScript, Python, SQL

**Mobile & Frontend:** SwiftUI, Android (Java, Kotlin), React.js

**Backend & Cloud:** Firebase (Authentication, Firestore, Storage), REST APIs, ASP.NET Core

**MVC Databases:** Firestore, SQL Server, MySQL, Supabase

**Tools:** Git, GitHub, Xcode, Android Studio, VS Code

## PERSONAL PROJECTS

[\*\*DyadeSpace\*\*](#) | Mobile Project & Task Management App (SwiftUI / Kotlin + Supabase) | **Dec 2025 – Present**

- Designing and building a scalable project and task management system with status-based workflows.
- Implemented async data fetching, state management, and expandable UI components for mobile.
- Focused on clean architecture, data modeling, and frontend-backend synchronization.

[\*\*PlugTrade\*\*](#) | iOS Marketplace App (SwiftUI + Firebase) | **November 2025**

- Built a native iOS marketplace app enabling users to buy, sell, and negotiate electronics trades.
- Implemented SwiftUI UI architecture with reusable components, state management, and real-time updates.
- Integrated Firebase Authentication, Firestore, and Storage for secure accounts, listings, media uploads, and live trade interactions.

[\*\*The Chair\*\*](#) | Android Booking App (Java + Firebase) | **November 2025**

- Developed an Android booking platform connecting customers with haircare professionals via profiles, portfolios, and availability.
- Implemented Google Maps SDK with custom markers, location-based search, and filtering.
- Built secure Firebase Authentication, role-based user logic, and real-time Firestore synchronization.

[\*\*BrickBasket\*\*](#) | Full-Stack Web App | **September 2025 – November 2025**

- Built a real-time construction material delivery platform with order tracking, notifications, and map integration.
- Designed a React.js dashboard with Firebase authentication and scalable data handling.

[\*\*Animal Care Veterinary Clinic\*\*](#) | ASP.NET Core MVC Web Application | **November 2025**

- Developed a full-stack clinic management system using C#, ASP.NET Core MVC, and SQL Server.
- Implemented database-first design with Entity Framework Core, CRUD operations, and role-based authentication.

## PROFESSIONAL EXPERIENCE

**Software Developer intern** | *DBtronics, Alberta, CA* | **Jan 2026 - Present**

- Built automated booking and lead management workflows using GoHighLevel
- Designed AI chatbot flows to capture leads and schedule consultations
- Implemented CRM integrations and workflow automation for small businesses
- Reduced manual booking and response time through automation systems

**Construction Worker** | *Lienco Construction, Montreal, QC* | **Apr 2023 – Jan 2026**

- Coordinated logistics and material deliveries across residential and commercial renovation projects
- Worked within time-critical, team-based environments requiring planning, adaptability, and problem-solving.
